SYNOPSIS:	<p>After the death of Sultan Murat Han, Sehzade Mehmed and Sehzade Orhan are the only heirs of the Ottoman Empire, who are both desiring to reign. With the support of Mara Hatun, Mehmed goes to Edirne in order to accede to the throne with the support of feudal lords. Meanwhile, Orhan finds companionship from the Byzantines in Constantinople (Istanbul). For the future of the Byzantine Empire, Eleni is being forced to Orhan. The Emperor of Constantinople wants Sehzade Orhan to be the head of the Ottoman Empire and decides to send him to Edirne to succeed the throne.</p> <p>When Mehmed comes to Edirne, where he had been lowered from the throne years ago, he decides to confront the grand vizier Çandarlı Halil Pasha, whom he sees as the reason for his dethronement. Çandarlı Halil Pasha finds himself in a position to comply with the desires of Mehmed. Mehmed goes after Orhan, as he is also an heir to the empire, while Orhan disobeys the wishes of the Byzantine Emperor. Mehmed has to challenge not only the Byzantine Empire but also his own brother. In the meantime, Halil Pasha and Ishak Pasha merge their power to act against Fatih Sultan Mehmed. On the other hand, the Roman Emperor Constantine forms an alliance with Çandarlı Halil Pasha to oppose the reign of Mehmed.</p> <p>Mehmet and Delibas travel to Constantinople to obstruct the meeting of crusaders, which triggers Constantine to defy the power of Mehmed. In order to attract Mehmed's attention, Constantine uses Orhan as a bait to prepare the ground for a battle between him and Mehmed. Emperor Mehmed has to deal not only with Constantine but also with the riot of the feudal lords in order to accomplish unity and peace across the lands of the Ottoman Empire.</p> <p>Constantinople has been attempted to be conquered for many years by different emperors, but no cannonball or ship was able to trespass the Byzantine army. As the new ruler of the Ottoman Empire, Mehmed must defeat the enemy and fight against Çandarlı Halil Pasha to seize the city. He leads a successful war and climbs the steps toward victory with his strategic intelligence and trained military skills. After two years of becoming the new ruler of the Ottoman Empire, Mehmed conquers Constantinople and gains the power of the city from the Byzantine Empire. From that day forward, Emperor Mehmed is remembered as Mehmed the Conqueror and his victory becomes the beginning of a new era for the Ottomans.</p>
