<b>SYNOPSIS:</b>	<p>Synchronous is a series focusing on the multi-dimensional story of Sedat and Mina, an unhappy married couple with a child. In alternate realities, these characters go through different life paths and multiple possibilities are realized in different dimensions. The story merges alternate versions of this couple from different realities</p> <p>In the first dimension, Sedat and Mina have a challenging relationship. They are trying to get along with their child. During a heated fight, Sedat kills Mina by accident and decides to burry her to not be punished. In the second dimension, Sedat and Mina are a grieving couple because of the death of their child. Due to her sadness, Mina commits suicide. In the third dimension, Sedat and Mina are deeply in love with each other. One night, Sedat’s business partner Erol visits the couple and they get into an argument, which ends with Erol killing Sedat.</p> <p>Although these characters are alternate realities of each other from other dimensions, they get to meet with each other when a storm causes all the dimensions to intertwine. This situation gives them the chance to revoke what has been done or remake what has not been done.</p>
